3.4. All Internet Users - Cookies, Web Beacons, Internet Protocol (IP) Address, Aggregate Information

3.4.1.1. Cookies

Like many other websites, we use data collection devices such as "cookies" on certain web pages to help analyze our web page flow and measure promotional effectiveness. A cookie is a text-only string of information that a website transfers to the cookie file of the browser on your computer's hard disk so that the website can remember who you are. A cookie will typically contain the name of the domain from which the cookie has come, the 'lifetime' of the cookie, and a value, usually a randomly generated unique number. This helps us to provide you with a good experience when you browse our website and also allows us to improve our website and services.

A few important things you should know about cookies:

- SSA offers certain features that are available only through the use of cookies.
- SSA uses cookies to better your website experience.
- SSA uses cookies to help identify you and maintain your signed-in status.
- Most cookies are "session cookies," meaning that they are automatically deleted from your hard drive at the end of a session.

- You may encounter cookies from third parties on certain pages of the websites that SSA ***does not*** control. (For example, if you view a web page created by another user, there may be a cookie placed by that web page.)
- Cookies are also used on mobile devices to run the SUBWAY® App.

You have the ability to accept or decline cookies by modifying the settings in your browser. However, you may not be able to use all the interactive features of the Sites if cookies are disabled.

If you use Sites that employ Flash Player, a small Flash Cookie may be used. The purpose of using these cookies is to store your flash player preferences and to enhance your browsing experience. Flash cookies are stored on your computer in a similar way that standard cookies are stored on your computer, except they are stored in a different location. For that reason, it is not possible to block or manage Flash Cookies directly from your browser.

For additional information, and in order to manage or delete Flash Cookies, please visit Adobe's website by clicking here: <https://helpx.adobe.com/flash-player/kb/disable-local-shared-objects-flash.html>.

3.4.1.2. Web Beacons

SSA uses web beacons, also called “web bugs,” “pixel tags” or “clear GIFs, to help manage SSA’s online advertising and promotions.

Used in combination with cookies, a web beacon is an often-transparent graphic image, usually no larger than 1 pixel x 1 pixel, which is placed on a website or in an email, that is used to monitor the behavior of the user visiting the website or sending the email. When the HTML code for the web beacon points to a website to retrieve the image, at the same time it can pass along information such as the IP address of the computer that retrieved the image, the time the web beacon was viewed and for how long, the type of browser that retrieved the image and previously set cookie values.

Web beacons are typically used by a third-party to monitor the activity of a website. A web beacon can be detected by viewing the source code of a web page and looking for any IMG tags that load from a different server than the rest of the website. Turning off the browser's cookies will prevent web beacons from tracking the user's activity. The web beacon will still account for an anonymous visit, but the user's unique information will not be recorded.

SSA uses its web beacons to track which advertisements and promotions bring users to SSA's website. This information does not include your name, address, telephone number or email address.

3.4.1.3. Internet Protocol (“IP”) Addresses and Log Files

An IP address is associated with your computer or mobile device's connection to the internet. SSA may use your IP address to help diagnose problems with SSA's server, to administer the Sites and to maintain contact with you as you navigate through the Sites. Your computer's IP address also may be used to provide you with information based upon your navigation through the Sites. SSA does not link IP addresses to any Personal Information.

Similarly, log file information is automatically reported by your mobile or other access device each time you access the SUBWAY® App. When you register a SUBWAY® account, the SUBWAY® App may automatically record certain information whenever you use the SUBWAY® App. The log files may include information such as your user request, IP address, browser type, the number of times you access the SUBWAY® App and other such information.

3.4.1.4. Anonymous and Aggregated Information

Anonymized and aggregated information is used for a variety of functions, including the measurement of visitors' interest in and use of various portions or features of the Sites. Anonymized or aggregated

information is not Personal Information, and SSA may use such information in a number of ways, including internal analysis, data analytics and research. We also may share anonymized or aggregated information with third parties for our or their purposes, but none of this information will allow anyone to identify you or to determine anything else personal about you.

4. NOTICE – WHAT DO WE DO WITH THE PERSONAL INFORMATION WE COLLECT?

First, of course, we use the Personal Information you provide us or that we collect to provide you with the products, services or information you have requested or to improve the functionality or your experience using our Sites.

We also may use your Personal Information to provide you with information concerning SUBWAY® products or services in which we think you may have interest.

On some pages of our Website we may allow third-party advertising partners to set web tracking tools (e.g., cookies and web beacons) to collect anonymous, non-Personal Information regarding your activities on those pages (e.g., your IP address, page(s) visited, time of day). We may also share such information we have collected with third-party advertising partners. These advertising partners may use this information (and similar information collected from other websites) for purposes of delivering future targeted advertisements to you when you visit other (non-SUBWAY®) websites within their networks. This practice is commonly referred to as "interest-based advertising" or "online behavioral advertising."

Pages of our Website that collect information that may be used by such advertising partners for interest-based advertising purposes may be identified by a link to AdChoices on the page.

5. CHOICE

You have the right to opt out of certain uses and disclosures of your Personal Information, as set out in this Privacy Statement. Where consent for the Processing of Personal Information is otherwise required by law or contract, SSA will comply with the law or contract.

Participation in the SUBWAY® loyalty program is voluntary; you may end your participation in the SUBWAY® loyalty program by using any of the methods set out in Section 10 of this Privacy Statement, in which case any data gathered through the program will be deleted (although data originating through other non-program interactions may remain with SSA or other members of the SUBWAY® Group.

5.1. Compliance with the Digital Advertising Alliance & Do Not Track

The SUBWAY® Group uses the Evidon assurance platform to comply with the cross-industry Self-Regulatory Program for Online Behavioral Advertising as managed by the Digital Advertising Alliance ("DAA") (<http://aboutads.info>). As part of this service, the SUBWAY® Group's online advertisements and websites are sometimes delivered with icons that help consumers understand how their data are being used and provide choice options to consumers that want more control. The list of our advertising partners may be updated from time to time. To opt-out of internet-based advertising by all DAA-participating companies, please visit <http://www.aboutads.info/choices/>. Even if you opt-out through this service, we may still collect non-Personal Information regarding your activities on our Sites and use it for non-interest-based advertising purposes as described in this Privacy Statement.

Do Not Track ("DNT") is a privacy preference that users can set in certain web browsers. DNT is a way for users to inform websites and services that they do not want certain information about their webpage

visits collected over time and across websites or online services. SSA is committed to providing you with meaningful choices about the information collected on the Sites for third-party purposes, and that is why SSA provides the DAA opt-out link above.
